In 2005, the them was gastronomy (62 countries, 111 stamps) an interesting theme for all food lovers. The Croat and Serb post of Bosnia and Herzegovina took part for the first time as official UPU members. Former ex–USSR republic Kazakhstan took also part for the first time although only a few part of their territory is in Europe! Montenegro took part also that year for the first time being the last ex–Yugoslav republic to do so. Iceland won the Best Europa stamp competition with an original round shaped stamp representing a plate.

EUROPA

2006 (62 countries, 119 stamps), Kosovo took part for the first time, even if they weren't independent at that time. The UN administration post office UNMIK issued the stamps that year. 2006 was the year of a quite large common theme: Integration through the eyes of Young People. Integration in a large meaning. It could be integration of people of another culture, country or of disabled people, like the Czech republic chosen for. The Ukraine won the contest that year with an allegoric stamp. In 2006 it was also the 50th anniversary of the Europa stamps. Many countries around the globe decided to celebrate this event by issuing stamps but strange enough very few European countries did and none of the 6 first countries having issued the first Europa stamps in 1956.

Issues of Questionable Authenticity
The following may turn out to be legitimate, but they show one or more signs of being Cinderellas

2005 **Afghanistan** 8v plus 2 ss of 4v each and 1 ss of 8v+label, perforated and imperforated. Afghanistan has announced that many stamps with its country name were not authorized by the Afghan Post.
2005 **Benin** 8 values + souvenir sheet. Also 2 sheetlets of 4 values each. All exist perforated and imperforted.
2005 **Chad** 8 values plus 2 souvenir sheets of 4 values each and 1 souvenir sheet of 8 values + label.
2005 **Mozambique** 12 values, plus 6 sheetlets of 2 values each, plus one souvenirs of all 12 values. Sheetlets of 2 values are in the same format as Mongolia. Scott has noted that this issue is illegal. A dealer on eBay noted for selling Cinderellas is also offering sheetlets of 1 stamp each @ $9 apiece.

2005 **St. Thomas & Prince Islands** (spelled Sao Tome e Principe) 8 values plus 2 souvenir sheets of 4 values each and 1 souvenir sheet of 8 values + label in the same format as Chad. A dealer on eBay noted for selling Cinderellas is also offering 4 sheetlets of 1 stamp each for $50.
04.04.2006 **St. Thomas & Prince Islands** (spelled Sao Tome e Principe) 2 souvenir sheets showing the 1956 Europa design, plus Concorde, satellites, etc. See EN 385-13 and EN 386-7 for illustrations. Quality is very crude. I notice that all of this country's issues shown in Scott have "S.Tome" on the stamp, as opposed to "Sao Tome". I have been watching the Cinderella dealers to get an idea of what's happening and there have been an amazing number of topical issues lately bearing this country's name.

►8 February 2005 – Congo (Democratic Republic)
no Scott # but Michel lists them in the 2010 Europa catalogue 12 values, plus 6 sheetlets of 2 values each and one souvenir sheet of 12 values (perforated and imperforated).

This issue is deemed to be illegally produced under the direction of Marino-Montero International run by Mr. Juan Carlos Marino Montero. It is not honoured as legitimate by any official EUROPA organization. The status of it is the same as the illegal 2005/6 EUROPA stamp issues made in the name of Chad, São Tomé and Príncipe, Afghanistan and the still listed Mozambique. Proof that this item was produced and distributed by Marino-Montero International (who also owned and operated the Mayfair International Security Printers located in France who printed them), is the document made by Filatelia International owned by George Katz authorizing the use of the "patented" logo inscribed on all the stamps of this issue. The document is for the São Tomé and Príncipe illegal stamp series. This document was posted on Mr Montero's own website called Stamp-Scandal which has since been proven to be riddled with lies and deceit to promote the illegal stamp producers own agenda to legitimize his illegal stamp productions. This logo is **only** found on the five country issues described. It is **not** found on any genuine EUROPA issues of the time era. There is no evidence of commercial postal usage of this issue. Only catalogues known to list illegally produced stamps due to influences by this proven rouge stamp agency and its owner who was convicted for producing illegal stamps in the name of Niger and named as producing illegal stamps in numerous UPU circulars are still listing it. This and the other four series have been massively produced in many forms and is rejected by all true EUROPA stamp collectors and organizations. Simply go to the official EUROPA stamp websites which show **every** legally produced EUROPA stamp issue ever made and try to find this issue listed. You will find that it is not included. It is best to avoid investing in because if the catalogs that still list it do the proper research, they will find that they must de-list it to regain any trust of their status as a reliable source.

8 values plus 2 souvenir sheets of 4 values each and 1 souvenir sheet of 8 values + label, perforated and imperforated. Afghanistan has announced that many stamps with its country name were not authorized by the Afghan Post.

These **EUROPA** themed stamps have been confirmed on numerous websites as being produced and distributed illegally. Other countries effected by the scam were Mozambique, Chad, Congo DR, Benin and São Tomé and Príncipe.

These stamps were illegally produced by Mayfair International Security Printers located in France and distributed through the so-called philatelic agency called "Marino-Montero International" and are distributed by associated British, German, U.S., Belgian and other Eastern European based illegal stamp dealers.

All genuine stamp issues for Afghanistan are listed on the UPU WNS System. This item is not there nor listed in any catalog. It is denounced as illegally produced in numerous locations.

12 values, plus 6 sheetlets of 2 values each, plus one souvenir sheet of all 12 values. Scott has noted that this issue is illegal. A dealer on eBay noted for selling Cinderellas is also offering sheetlets of 1 stamp each @ $9 a piece.

Scott catalog notes this item was declared **illegal** by Mozambique's Postal administration, however it is still being listed in Michel. This EUROPA series was produced by or for Marino Montero International philatelic agency who is the same agency that made the fully denounced and/or delisted São Tomé and Príncipe, Chad, Benin and Afghanistan 2006 EUROPA series dating 2005. This series has been massively and excessively produced to the point it has very little to no philatelic value at all. It is only listed in the general stamp categories because Michel and Yvert still list it. Should they de-list it, it will be moved to the illegal stamps category. **Buyer beware!**

50º ANIVERSARIO PRIMEIRO SELO EUROPA

In 2007 (62 countries, 113 stamps) PostEurop decided to celebrate the 100 years of Scouting and was chosen as common theme. Russia decided, not to take part that year. We are also doing a Best Europa stamp poll on it and Norway won that year, Armenia won PostEurop's contest. It was the first year that people around the world could vote through the internet to select the best Europa stamp.

300 Armenian Dram
300 Armenian Dram

33×40 mm

These illegally produced stamps were created and distributed by a British stamp dealer and his associates. The Republic of Mountainous Karabakh also known as Republic of Nagorno Karabakh has been in constant conflict between Armenia and Azerbaijan since the Soviet breakup in 1991. Many "issues" have been listed by some of the major catalogues although none are recognized by the UPU nor by PostEurop. These obviously are not listed and are deemed as illegal productions made from outside sources not associated with either country. This set not even recognized by Europa specialists. The Republic did not issue any Europa themed "stamps" until 2008.

In 2008 (65 countries; 126 stamps) had writing letters as topic. A nice way to promote postal communication in the age of the internet and e–mails writing. No post, means no stamps and it is quite obvious that our hobby will suffer of it in the next decades... Hungary won PostEurop's Best Europa stamp contest.
That year the region of Nagorno Karabakh issued Europa stamps for the first time. This region located in the Caucasus is disputed between Armenia and Azerbaijan. Since 1992, the Armenian majority living in Nagorno Karabakh declared themself independent.

Illegal stamps

2008 – South Ossetia

These stamps have been denounced in Georgia 2012 Circular 75 as illegally produced without the authorization of the postal administration.

There is conflict with the circular as it was made in 2012 after Russia took over South Ossetia in 2008. Several issues were produced. One being in 2009 and another in 2013. Everything else is illegally produced.

This issue was produced without authorization of the C.E.P.T. to use its emblem, and is not considered an official C.E.P.T issue

Both stamps have also been issued in booklets containing 10 stamps of each.

2009 – Transnistria

These stamps were produced and distributed by illegal stamp producers who have consistently produced illegal stamps in the name of the Pridnestrovian Moldavian Republic since they became independent in and began issuing local stamps in 1991. Research is needed in determining the validity of any stamps in the name of this republic before buying them.

The illegal stamps usually give the region's name in Cyrillic, as 'ПМР' , although sometimes the Latin letters 'PMR' are seen instead. There is no consistent practice, with some stamps only inscribed in Cyrillic and others only in Latin.

Transnistria has never been a member of PostEurop and does not issue Europa stamps or any other Europa philatelic material.
